

Lab Index for Lab Sheet 1

SN	Title	Lab Date	Signature
1	Write a program to calculate simple interest for a given P, T, R. ($I = P \cdot T \cdot R / 100$)	2082-09-08	
2	Write a program to find average of three real numbers.	2082-09-08	
3	Write a program to find area and circumference of circle. [$A = \pi r^2$ $C = 2\pi r$]	2082-09-08	
4	Write a program to find area of triangle given sides a, b, c. $s = \frac{a+b+c}{2}$ and $A = \sqrt{s(s-a)(s-b)(s-c)}$	2082-09-08	
5	Write a program to convert Celsius to Fahrenheit and vice-versa. [$C = \frac{5}{9} (F - 32)$ and $F = \frac{9}{5} C + 32$]	2082-09-09	
6	Write a program to find real roots of quadratic equation $ax^2 + bx + c = 0$. [$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$]	2082-09-09	
7	Write a program to find distance between two points (x1,y1) and (x2,y2). [$d = \sqrt{(x_2 - x_1)^2 + (y_2 - y_1)^2}$]	2082-09-09	
8	Write a program to find volume of a cylinder. [$V = \pi r^2 h$]	2082-09-09	
9	Write a program to find compound interest. [$CI = P * ((1 + \frac{R}{100})^T - 1)$]	2082-09-09	

Lab Index for Lab Sheet 2

SN	Title	Lab Date	Signature
1	Write a program to input days and display it in terms of years, months and days.	2082-09-08	
2	Write a program to input time in seconds and display it in terms of hours, minutes and seconds.	2082-09-08	
3	Write a program to calculate the gross salary of an employee given the basic salary. Use the following rules: HRA = 20% of basic salary DA = 50% of basic salary Gross Salary = Basic Salary + HRA + DA	2082-09-08	
4	Write a program to input two numbers and display larger number.	2082-09-08	
5	Write a program to check whether a given number is odd or even.	2082-09-08	
6	Write a program to check if a number is divisible by both 5 and 11.	2082-09-08	
7	Write a program to check whether a year is a leap year or not using relational and logical operators.	2082-09-08	
8	Write a program to input three numbers and display smallest number.	2082-09-08	

Lab Index for Lab Sheet 3

SN	Title	Lab Date	Signature
1	Write a program to read a number and check whether it is positive or negative.	2082-09-08	
2	Write a program to read cost price and selling price of a good and find profit or loss amount.	2082-09-08	
3	Write a program to take marks obtained by a student in 5 subjects each have its 100 full marks and display total marks, percentage and division obtained. The division will be displayed according to following rules Percentage Division >=80 Distinction <80 and >=70 First Division <70 and >=60 Second Division <60 and >=50 Third Division Before displaying division make sure that the student is passed. Pass marks for each subject is 50. If student has less than 50 marks in any subject, display failed.	2082-09-08	
4	Write a menu-based program to display following MENU ----- 1. ADD 2. SUBTRACT 3. MULTIPLY 4. DIVIDE 5. EXIT Ask user to input choice (1-5). When user enters 1-4, ask for two numbers to enter and show corresponding result such as sum, difference, product and quotients and if user enters 5, program should terminate.	2082-09-08	

Lab Index for Lab Sheet 4

SN	Title	Lab Date	Signature
1	Write a program to find the factorial of a given number.	2082-10-10	
2	Write a program to find the sum of digits of a given number.	2082-10-10	
3	Write a program to find the reverse of a given number.	2082-10-10	
4	Write a program to find whether given number is palindrome or not.	2082-10-10	
5	Write a program to check whether given number is prime or not.	2082-10-10	
6	Write a program to find gcd of two numbers.	2082-10-10	
7	Write a program to display the first 'n' terms of Fibonacci series.	2082-10-10	
8	Write a program to generate multiplication table up to number 'n' entered by user as: 1×1=1 1×2=2 ... 1×10=10	2082-10-10	

Lab Index for Lab Sheet 5

SN	Title	Lab Date	Signature
1	Write a program to read N numbers from user and display the numbers, their sum and average.	2082-10-19	
2	Write a program to find largest number from set of N numbers entered by users.	2082-10-19	
3	Write a program to read N numbers and sort them in ascending order.	2082-10-19	
4	Write a program to search for an item in an array.	2082-10-19	
5	Write a program to add two matrices by asking for a matrix order from user.	2082-10-19	
6	Write a program to display transpose of a given matrix.	2082-10-19	
7	Write a program to multiply two matrices by asking size from user	2082-10-19	

Lab Index for Lab Sheet 6

SN	Title	Lab Date	Signature
1	Write a program to demonstrate the use of string library functions: strlen(), strcpy(), strcat(), strcmp(), strlwr(),strupr() and strev().	2082-10-26	
2	Write a program to find length of a string without strlen function.	2082-10-26	
3	Write a program to convert string into upper case without using function.	2082-10-26	
4	Write a program to find reverse of string without using function.	2082-10-26	
5	Write a program to copy string without using function.	2082-10-26	
6	Write a program to read N words and sort them in alphabetical order.	2082-10-26	

Lab Index for Lab Sheet 7

SN	Title	Lab Date	Signature
1	Write a program to find factorial of given integer using a function.	2082-10-29	
2	Write a program to find surface area of box using function.	2082-10-29	
3	Write a program to find maximum of two numbers using function.	2082-10-29	
4	Write a program to reverse a number using function.	2082-10-29	
5	Write a program to implement bubble sort using function.	2082-10-29	
6	Write a program to find factorial of number using recursion.	2082-10-29	
7	Write a program to generate first n terms of Fibonacci series using recursive function to return the Nth term of series.	2082-10-29	
8	Write a program to search for an item in a list of 10 numbers using function.	2082-10-29	
9	Write a program to display sum of digits of a number using function.	2082-10-29	
10	Write a program to find sum of two matrices passing matrices to the function.	2082-10-29	

Lab Index for Lab Sheet 8

SN	Title	Lab Date	Signature
1	Create a structure named company which has name, address, phone and noOfEmployee as member variables. Read name of company, its address, phone and noOfEmployee. Finally display these members' value.	2082-11-04	
2	Write a program to enter two Cartesian coordinate points and display the distance between them.	2082-11-04	
3	Define a structure "complex" to read two complex numbers and perform addition, subtraction of these two complex numbers and display the result.	2082-11-04	

Lab Index for Lab Sheet 9

SN	Title	Lab Date	Signature
1	Write a program to find the sum of all the elements of an array using pointers.	2082-11-10	
2	Write a program to swap two numbers using call by reference.	2082-11-10	
3	Write a program to allocate memory for an array using dynamic memory allocation, storing the values in the array and retrieving the values from the array.	2082-11-10	
4	Pass the structure student with member RollNo, Name, Address, Age & marks in Physics, math into a function and read the structure member and display the values from the function (use structure pointer).	2082-11-10	

Lab Index for Lab Sheet 10

SN	Title	Lab Date	Signature
1	Write a program to create a file and store records of 10 students (name, roll, marks). Then read and display all the records from the file.	2082-11-16	
2	Write a program to open an existing text file and count the total number of characters, words, and lines in the file.	2082-11-16	
3	Write a program to copy the contents of one file to another file.	2082-11-16	
4	Write a program to create a structure employee with fields: id, name, address, and salary. Write multiple employee records into a file and display all the records by reading from the file.	2082-11-16	

Lab Index for Lab Sheet 11

SN	Title	Lab Date	Signature
1	Write a program to draw different basic shapes: line, rectangle, circle, and ellipse using graphics functions.	2082-11-21	
2	Write a program to draw a smiley face using circle and arc functions.	2082-11-21	
3	Write a program to draw and fill in a bar graph using bar() and setfillstyle() functions.	2082-11-21	
4	Write a program to create a simple animation of a moving car using graphics functions and delay.	2082-11-21	
5	Write a program to demonstrate different line styles, colors, and fill patterns available in C graphics.	2082-11-21
